PROFESSIONAL SUMMARY

Frontend Web Developer with 2 years of experience building responsive, scalable web applications using React, TypeScript, and JavaScript (ES6+). Experienced in developing inventory and purchasing systems, integrating REST APIs across multiple business systems, and delivering clean, accessible user interfaces. Collaborative team member in Agile environments, focused on performance, maintainability, and user experience.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Tailwind CSS

Integration & Data: REST API Integration, JSON, Axios / Fetch API

Testing: Jest, React Testing Library

Tools & Practices: Git, GitHub, Figma, Responsive Design, Agile/Scrum, Code Review

PROFESSIONAL EXPERIENCE

Junior Frontend Web Developer

October 2024 – Present

RDF Feeds, Livestock and Foods Inc., Philippines

- Developed a responsive inventory management web application using React, TypeScript, and Tailwind CSS, used by [N] staff across [N] departments.
- Built a purchase requisition module with dynamic forms, input validation, and a multi-level approval workflow, reducing requisition processing time by [X%].
- Integrated the frontend with REST APIs connecting inventory, purchasing, and [accounting/warehouse] systems, enabling real-time stock data synchronization.
- Implemented role-based access control and protected routes for [N] user roles (requestor, approver, purchasing, administrator).
- Designed an inventory dashboard with filterable data tables, low-stock alerts, and Excel/PDF export, cutting manual reporting time by [X%].
- Improved application performance through code-splitting, lazy loading, and memoization, reducing page load time by [X%].
- Wrote unit and component tests with Jest and React Testing Library, reaching [X%] code coverage.
- Collaborated with backend developers, QA, and business stakeholders in Agile sprints; used Git and GitHub for version control and code reviews.
